Experience Sharing: Examination of new types of designs

Gerardo Penas | OEPM | 21/07/2020

Funded by the European Union

This Project is funded by the European Union and implemented by the European Union Intellectual Property Office (EUIPO)

Why is it so relevant?

Sector with fast growth level:

- ✓ 50% of designs will be digitised designs.
- ✓ More and more products have displays.
- ✓ More and more sectors use ICT: shopping, news, sports, maps, food, dates, tourism, health, taxis, music,...
- ✓ More designs in the icon field: virtual migration.
- ✓ IoT, smart cities, smart energy, industry 4.0, digital twins...

Legal design definition

Design: “means the appearance of the whole or a part of a **product** resulting from the features of, in particular, the lines, contours, colours, shape, texture and/or materials of the product itself and/or its ornamentation”.

(11) Whereas protection is conferred by way of registration upon the right holder for those design features of a product, in whole or in part, which are shown visibly in an application and made available to the public by way of publication or consultation of the relevant file;

Legal product definition

Product: means any industrial or handicraft item, including inter alia parts intended to be assembled into a complex product, packaging, get-up, graphic symbols and typographic typefaces, but excluding computer programs;

Why does design protection fit well?

- ✓ Companies invest millions of dollars to develop GUIs linked to functionalities (cool, intuitive and user-friendly).
- ✓ Protection is essential to avoid copy.
- ✓ Other ways of protection may be not so fit for purpose –TMs, patents, copyrights, secret.
- ✓ Designs not only prevent from the copy. General impression also counts.
- ✓ Fast granting process for products with short technological time life.

Why does design protection fit well?

Under European legislation, we consider that new types of designs fit under “product” legal definition:

- Graphical User Interfaces (GUI)
- Displays
- Icons
- Sequences of images
- Videogames (parts of)
- Videogames (characters)
- Typefonts
- Virtual Reality (?)

Statistics

Evolution classes 14-04 and 32-00

Example: Graphical user interface

D0529655-0004

Specific examination problems:

- Is the text included in the design?
- One design or several designs? Scrolling, drop-down buttons, radio buttons,...
- Classification: is it possible ornamentation for mobile app?

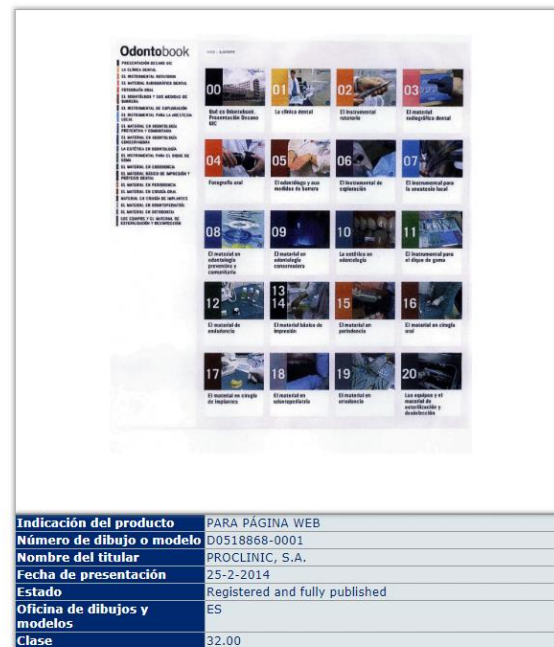

| | |
|------------------------------|--------------------------------------------------|
| Indicación del producto | Ornamentación para página web y aplicación móvil |
| Número de dibujo o modelo | D0529655-0004 |
| Nombre del titular | Pablo Sánchez Planelles |
| Fecha de presentación | 6-3-2019 |
| Estado | Registered and fully published |
| Oficina de dibujos y modelos | ES |
| Clase | 32.00 |

Example: Graphical user interface

D0518868-0001

Specific examination problems:

- Complex GUIs with multiple designs.

Example: Displays

Specific examination problems:

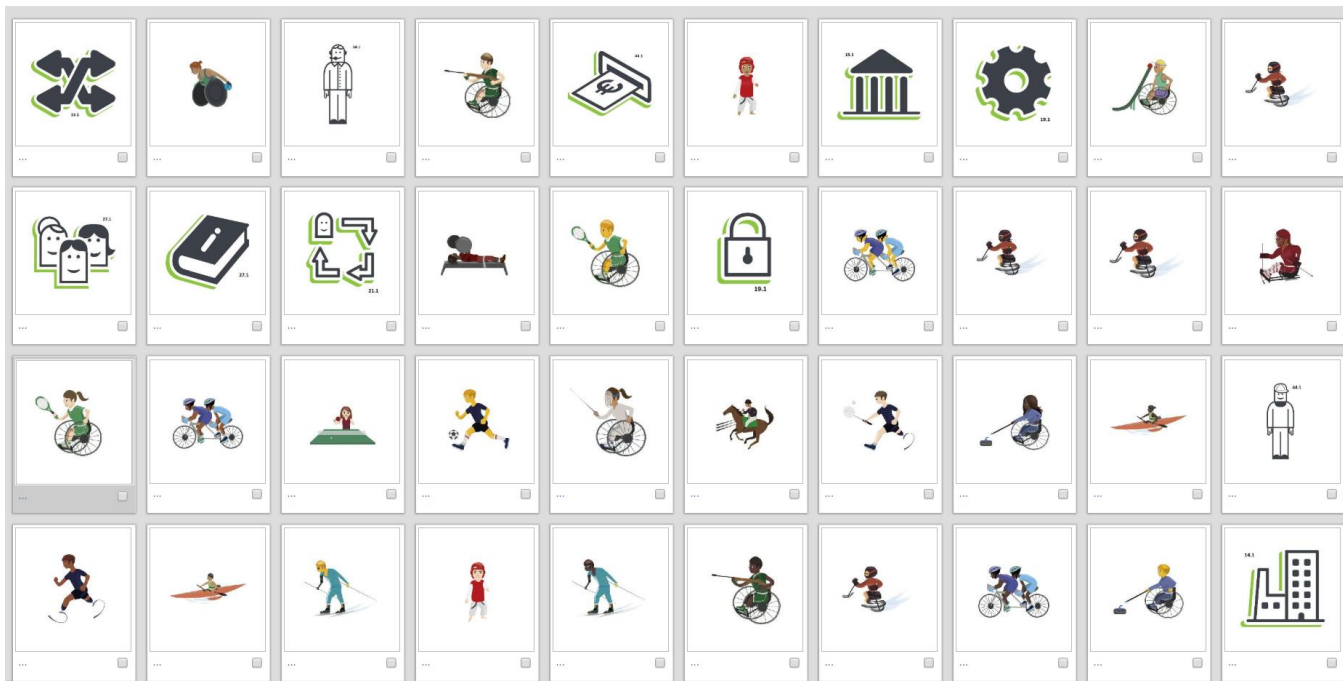

Not necessary although convenient to show in dotted lines the product on which the display is mounted.

D0028396-0001

| | |
|------------------------------|-------------------------------------------------------------------|
| Indicación del producto | ORNAMENTACION DE ICONOS PARA PANTALLAS DE VISUALIZACION DE DATOS. |
| Número de dibujo o modelo | D0028396-0001 |
| Nombre del titular | BAYER CORPORATION |
| Fecha de presentación | 13-11-2002 |
| Estado | Registered and fully published |
| Oficina de dibujos y modelos | ES |
| Clase | 14.03 |

Example: Icons

Example: Sequence of images

Specific examination problems:

Absence of legal tools to avoid misrepresentation.
Limited number of views.

Example: Sequence of images

CP6: Common practice agreed:

Anna Vives, una chica con el síndrome de Down, ha creado su propia tipografía de letra disponible para escribir en cualquier procesador de textos. El objetivo de esta iniciativa de Anna, que también quiere representar a todo un colectivo, es conseguir difundirla y potenciar los valores asociados a la letra: la igualdad social y la importancia del trabajo en equipo sumando capacidades. Otras palabras pueden ser, España, kilo, whisky, zapato y saxofón.

Example: Virtual reality

Specific examination problems:

Is it a design in the sense of the law?

Main harmonisation problem

Product: means any industrial or handicraft item, including inter alia parts intended to be assembled into a complex product, packaging, get-up, graphic symbols and typographic typefaces, but excluding computer programs.

In some countries, “product” legal interpretation is:
“physical product”

Main harmonisation problem

Conclusions: Challenges

- Improve the representation without affecting legal certainty.
- Protection in virtual environments and rule of visibility.
- International harmonisation (priority rights)
- Limited Case Law

Conclusions: Good news

- Institutional concern (SCT-OMPI).
- Users' interest.
- European Directive should bring clarification on these topics.
