

# TMview

A presentation to the CarlPI IP offices

---

João Carrilho & Martin Beckman  
Day 1 - 22 September 2020

## An overview of the centralised online tools of EUIPN

### Search and Classification Tools

**TMview**

DesignView

TMclass

DesignClass

**CENTRALISED TOOLS:** IP office takes advantage of the existing application hosted at EUIPO to integrate its data. No license agreement is needed.

**TMview**

---

## What is TMview?

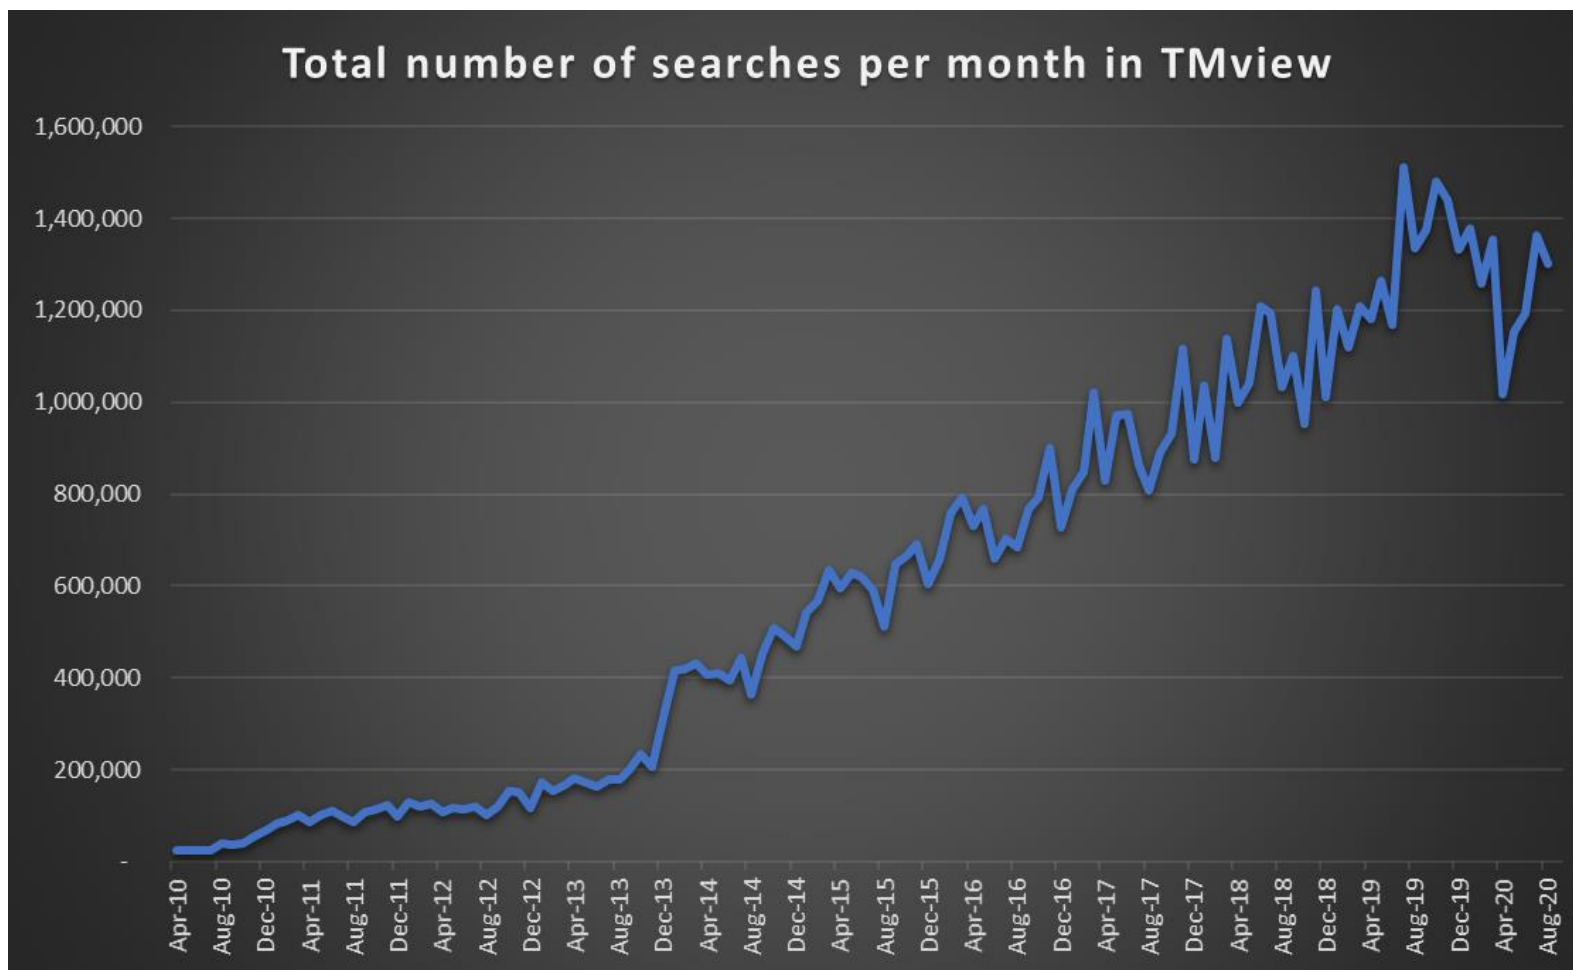

TMview is a *free online tool* which allows any Internet user to search *in a single place* for trade marks from *the national register* of all participating offices.

## TMview benefits & key features

1. A single online tool to check the availability of a trade mark (and keep an eye out for competition).
2. Includes more than 58 million trade marks from the official databases of 74 participating offices.
3. Carry out 24/7 trade mark searches in various languages and get first hand information from official trademark registers.
4. Information updated frequently (e.g. daily or weekly) by the participating offices.
5. TMview is the answer for want-to-be brand owners: Clear your trade mark idea before filing.
6. TMview is the answer for trade mark examiners when dealing with for instance priority claims.
7. Time and costs savings by providing a common, harmonized and multilingual platform for searching trade marks from all participating offices.
8. With the Alerts feature you can set up email warnings for selected trade marks regarding change of status, change of name and opposition period close to an end..
9. Combining it with the Fuzzy search you have a powerful tool to identify and keep track of similar conflicting trade marks and to monitor that nobody infringes your brand.
10. **Free of charge.**

## TMview - number of searches

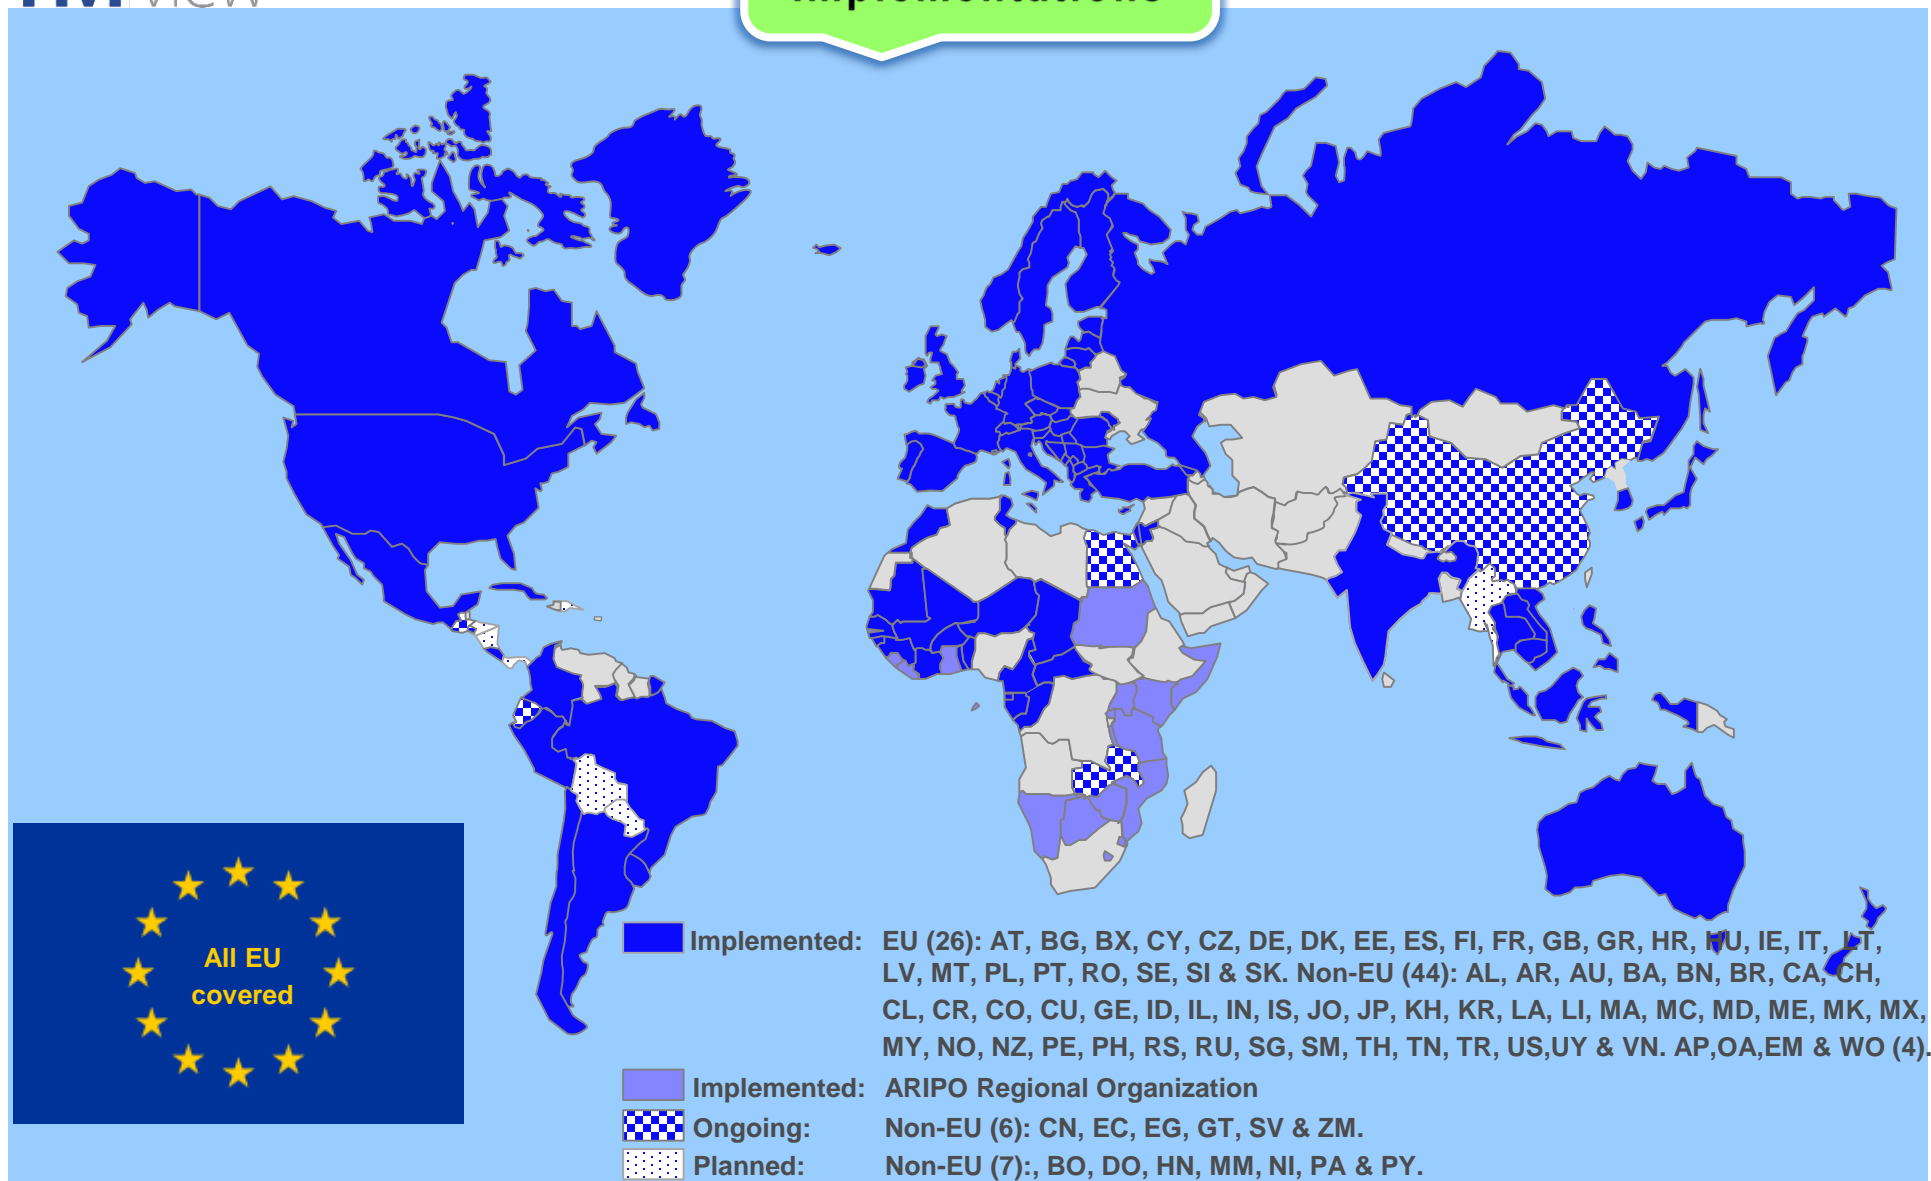

August 2020: **1.3 million**

## TMview / DESIGNview - Disclaimer

- The general purpose of TMview/DESIGNview is to provide a single access point for information concerning trade mark and design registrations and for consultation purposes only.
- Under no circumstances shall the information be seen as constituting professional or legal advice.
- The information provided by the participating offices is displayed as received, without any kind of guarantee.
- EUIPO strives to keep the information up-to-date and accurate. However, EUIPO cannot guarantee the accuracy and completeness of the information available in TMview/DESIGNview.
- ✓ **In other words, EUIPO recommends the users to seek legal advice and verify the information through the services of the participating offices prior to any legal action.**

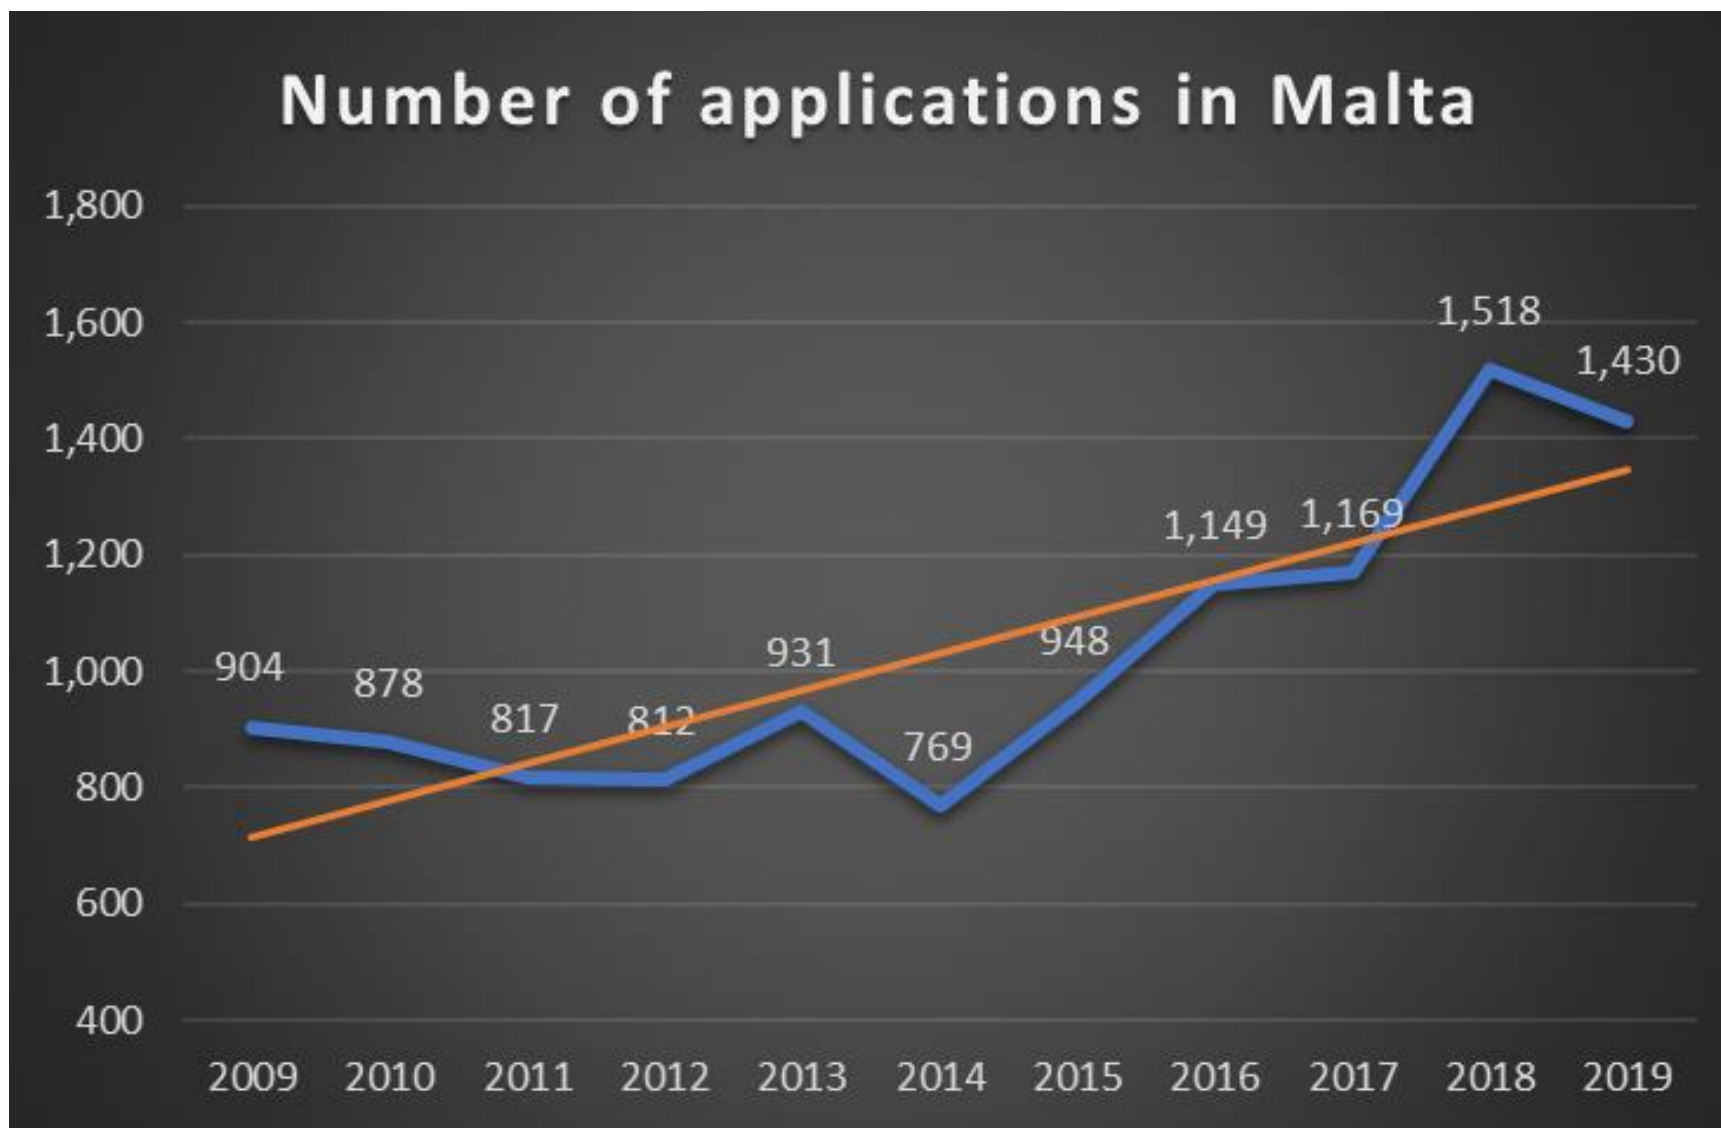

**TM**view

**74**  
**Implementations**

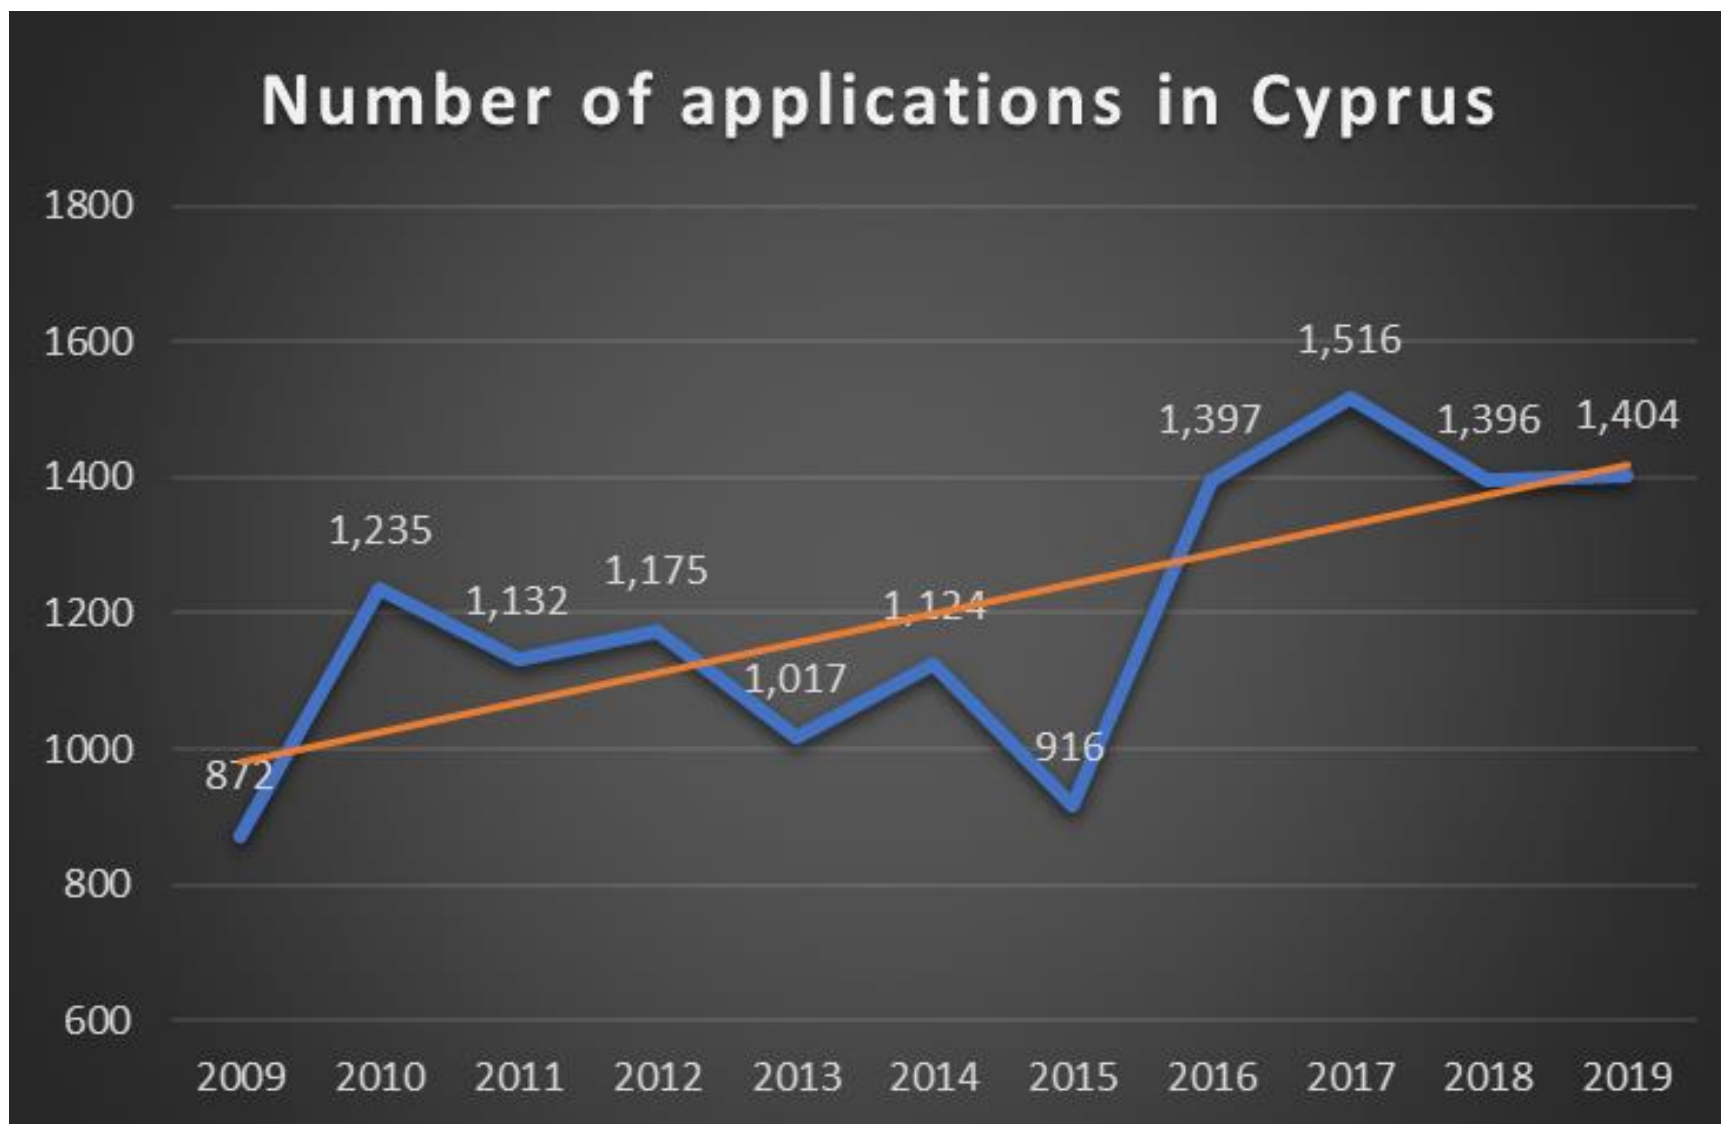

## Malta: An office that did not have an online search system - joined on 15/05/2013

**Cyprus: An office that was hesitant to join because of its paid service - joined on 30/06/2013**

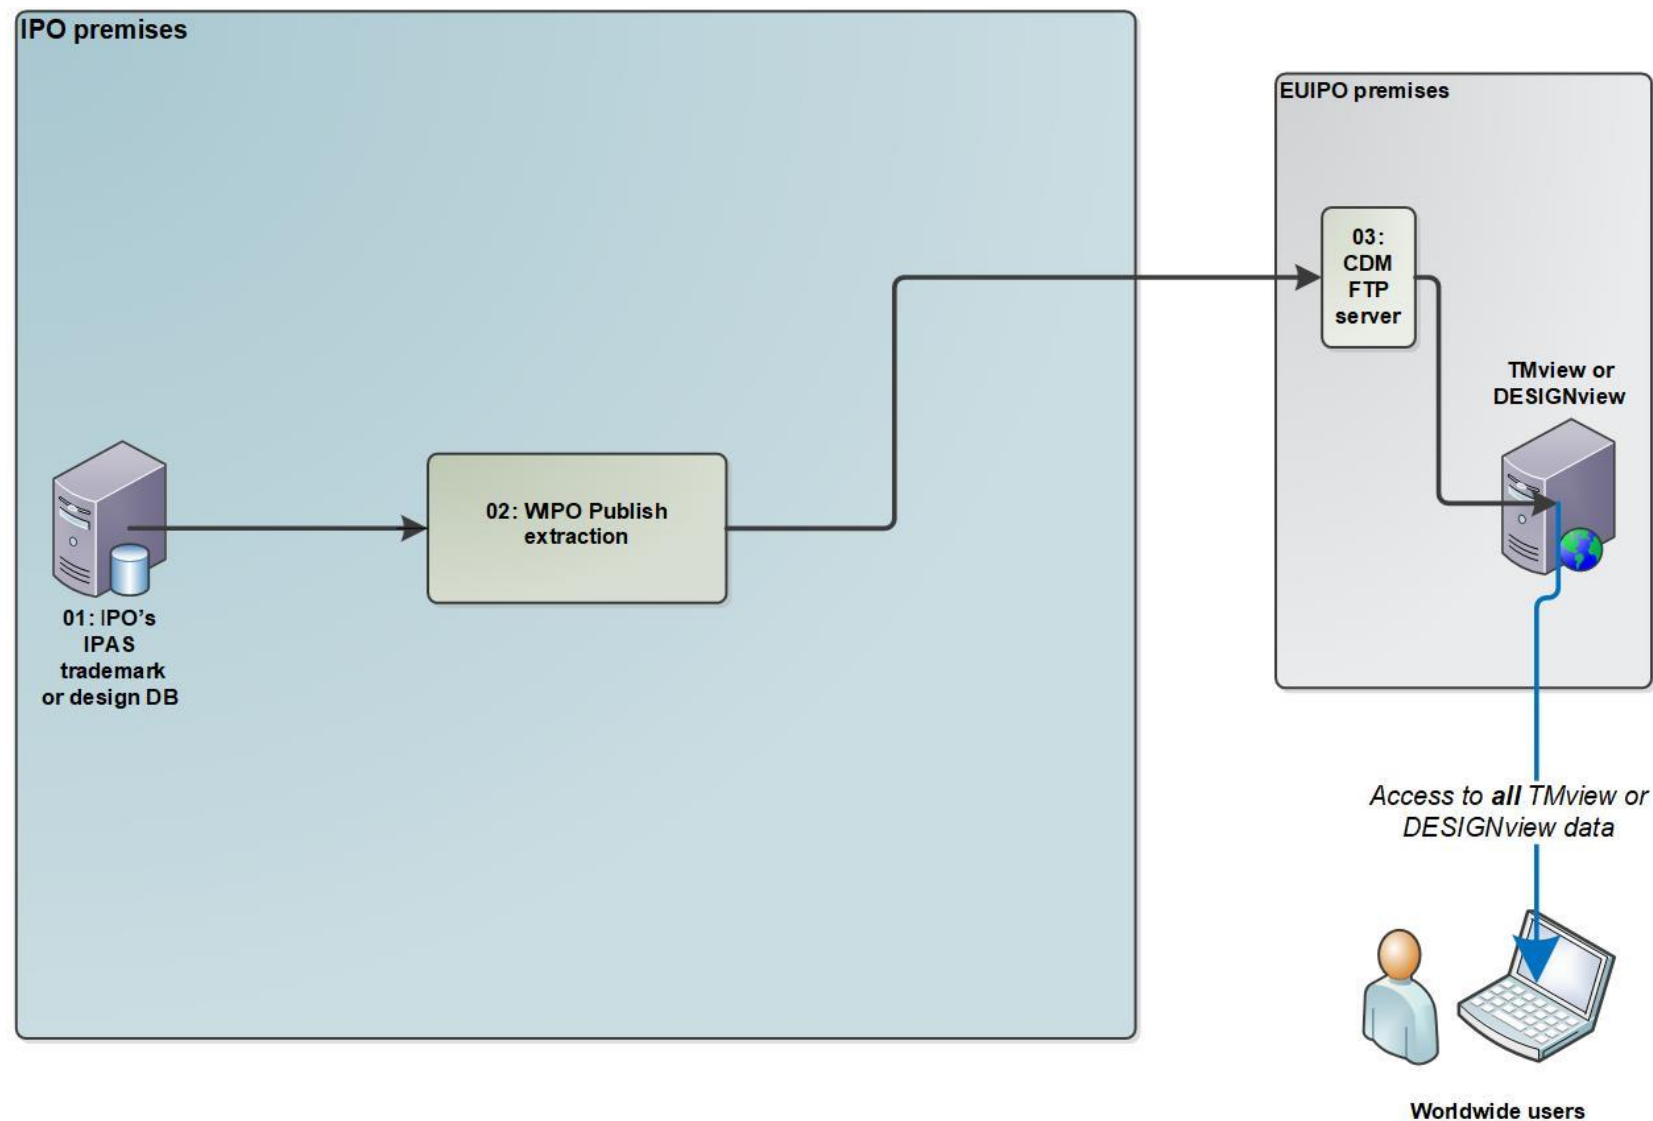

## TMview / DESIGNview - Integration steps

1. The IP Office assigns two people to the project:
  - A. One with knowledge of the business and the legal part (the regulations) regarding trademarks (and industrial designs).
  - B. And a technical person with knowledge of programming, the systems and database of the IPO.
2. Feasibility study phase
  - A. Data analysis (what can technically & legally be provided)
  - B. Time plan (part of the set-up document)
3. Development phase
  - A. Extraction and transformation mechanism (Full data base provided)
  - B. Data update extraction mechanism
  - C. Link between TMview / DESIGNview and the national search system
  - D. Data cleansing (optional, the IPO decide)
4. Testing phase
  - A. UAT (testing to be performed by the IP office before giving final OK to the go-live)
5. Go-live

## TMview / DESIGNview - WIPO Publish data extraction

Development phase  
reduced to a minimum since  
WIPO Publish takes care of:

1. Read and map data from IPAS.
2. Data transformation into XML and JPEG (for images).
3. Creation of zip files.
4. Automatic upload to FTP.

## TMview website: <https://www.tmdn.org/tmview>

The screenshot displays the TMview website interface. At the top, a navigation bar includes links for Home, About, News, Contact, Help, FAQ, Tutorials, and Enquiries, along with a 'Log in | Register' button. The main content area features a search bar with 'Find term' and 'Advanced search' options, and a 'Search' button. A 'Tip of the day' box on the right advises contacting trade mark offices for related issues. The left sidebar contains a 'Share with a friend' section, a 'News' section with two articles (ARIPO and Bosnia and Herzegovina join TMview, and Maintenance activity in TMview), and an 'Office information' section showing the number of trade marks in TMview (32099799). The 'Trade mark offices' section at the bottom lists 48 countries and their respective trade mark offices, organized in three columns around a world map.

**Find term**

**Advanced search**

**What is TMview?**

TMview shows trade mark information. It is:

- Free to use.
- Available 24 hours a day, seven days a week.
- Updated daily by the trade mark offices.
- Available in at least one official language of each integrated office.

**How can TMview help you?**

Use TMview to:

- Check the availability of your idea for a trade mark name.
- Find out the goods and services protected by your competitors' trade marks.
- Receive updates on selected trade marks for: Change of status, change of name and end of opposition period.

Welcome to Designview

Designview is a centralized access point to view the registered design information held by any of the participating National Offices, in a unique presentation format, independently of which office the data is coming from.

The design search tool will be based on the data of the registers of the participating offices, the WIPO and the OHIM.

Tip of the day

Find designs of a specific applicant in Advanced search.
