Welcome to Caribbean TMclass

Caribbean TMclass is an online multi-lingual consultation tool offering free-of-charge access to the lists of terms accepted as suitable to identify goods and services for the purposes of the registration of marks by participating Caribbean IP Offices. Caribbean TMclass helps you search for, and verify, the correct classification of those terms for goods or services in accordance with the criteria established by the International Classification Agreement (Nice Agreement). You can also verify whether a particular term is accepted by any of the participating Offices highlighted below and get translations of those terms into the working language of that Office. Caribbean TMclass has been developed by the Intellectual Property Offices of CARIFORUM States and the CARIFORUM Directorate, under the CARIFORUM-EU Intellectual Property and Innovation Project (CarIPI), funded by the 11th EDF and implemented by the European Union Intellectual Property Office (EUIPO). Caribbean TMclass is a regional interface of TMClass for the IP Offices belonging to the CARIFORUM group of states.

Benefits of Using Caribbean TMclass

- Allows applicants to delimit the specification of goods and services accurately prior to filing a mark.
- Saves time for IPOs as it will speed up the examination process when applicants use the tool prior to filing and for IPOs it's a quick and easy resource to check for acceptable specifications.

Benefits of Using Caribbean TMclass

- Gives the applicant certainty in relation to which goods and services each participating office will accept.
- Free of charge and available 24/7/365.
- Contains a translation tool.

Benefits of Using Caribbean TMclass

- **No installation costs for the IPO. TMclass is hosted at the EUIPO.**
- **No connections to be set up between TMclass and the IPO's systems.**

Way Forward

- **All CARIFORUM Countries to propose terms for inclusion in Caribbean TMclass**
- **Once list is compiled, it will be classified according to the Nice Classification in conjunction with the EUIPO.**
- **After Classification, the terms and its classification / delimitation will be recirculated to the Heads of the IPOs for validation**

Way Forward

- The terms will be added to the Caribbean TMClass.
- Applicants and examiners may consult the Caribbean TMClass when applications are submitted with local terms and verify whether the terms are classified correctly.

- **THANK YOU FOR YOUR ATTENTION.**
