What is Horizon Europe?

Uruguay
Presidencia

It's the main European R&D&i program for the period 2021-2027.

It is the **Ninth Framework Program** and the benchmark for Research and Innovation in Europe.

Main program to carry out the R&D&i policies of the EU.

Budget: 95.517 million euros (>30% Horizonte 2020)

General objective: achieve a scientific, technological, economic and social impact of EU investments in R&I, thus strengthening its scientific and technological bases and promoting the competitiveness of all Member States.

It not only finances European researchers, but also non-European researchers and entities

Why it's important to participate?

- To develop ambitious and innovative research projects
- Access new markets, new networks and alliances
- Access new knowledge
- Possibility of having mobility around Europe
- Attract talent and economic investments
- Gain global visibility
- Improve research exploitation
- Possibility of accessing the main research infrastructures in the world
- Being able to deal with global challenges together with the best scientists in the world

National Contact Points for Horizon Europe

Horizon Europe has seventeen areas for National Contact Points (NCP).

These are **professionals responsible for offering advice and information to all those interested in participating** in research and innovation projects in the Framework Program of the European Commission - Horizon Europe.

Their **profile is technical** and they **are in charge of:**

- **Disseminate and inform** about the funding opportunities of the Horizon Europe program among the research community in your country
- **Advise and assist potential applicants** in the preparation, presentation and monitoring of their proposal
- **Offer support during project execution**

NCP Designation Process

The **procedure to officially designate the National Contact Points of the Horizon Europe Program** is:

1) **Letter of official designation**: it is a letter headed and signed by a relevant national authority where it is specified who / whom and for which area it is being designated, the names and contact details must be included (address, telephone, organization, mail electronic) of the designated NCPs.

This letter should be **addressed to Mr. Jean-Eric PAQUET, Director General of the DG for Research and Innovation** since April 2018. It is desirable that it be written in English.

To the letter of appointment of the NCPs, the written confirmation and signature of each NCP must be added, that they have read and accepted the "Minimum standards and Guiding principles for setting up systems of, National Contact Points (NCP systems) under Horizon Europe", in particular the sections on confidentiality and conflict of interest. " Point 8 of the Guide.

2) Two Excel spreadsheets:

- I) **1 Excel spreadsheet with designations:** there is a model sheet (editable Excel which can be requested by e-mail redlacncp@auci.gub.uy) that details the 17 areas of the Program and the NCPs that cover them; yellow highlighting should be used in new designations.
- II) **1 clean Excel spreadsheet with designations:** save a clean Excel spreadsheet "clear", this should only contain the data of the new NCPs.

An **email** with the **official appointment letter** and the attached **Excel spreadsheets** should be **sent to:** **RTD-NCP-NOMINATIONS@ec.europa.eu**, if possible in order to carry out the follow-up, and if you have no problem. CC: redlacncp@auci.gub.uy (this point is optional).

LAC NCP Network

Objectives

- Promote and increase the participation of academy, SME and government institutions in the Horizon Europe Program focused on democratizing the access to opportunities among the different countries of the region.
- Strengthen the designation and motivation of NCPs in the CELAC region and improve the participation of these countries in Horizon Europe

Create a more effective, dynamic, proactive and sustainable network to foster closer cooperation between all national contact points in Europe, Latin America and the Caribbean.
